ARCSIGHT ESM / LOGGER NAMED WINNER OF THE SIEM CATEGORY IN THE *INFORMATION SECURITY*TM MAGAZINE AND SEARCHSECURITY.COMTM 2009 READERS' CHOICE AWARDS

ArcSight Network Configuration Manager Selected For Bronze in the Policy and Risk Category

ArcSight Protect '09, WASHINGTON, D.C. – September 14, 2009 – ArcSight, Inc. (NASDAQ: ARST), a leading global provider of security and compliance management solutions that protect enterprises and government agencies, today announced that ArcSight ESM / Logger received the Gold in the security information and event management (SIEM) category from The Information SecurityTM Magazine and SearchSecurity.comTM 2009 Readers' Choice Awards. ArcSight Network Configuration Manager took the Bronze in the policy and risk category.

According to SearchSecurity.com, "Readers were most notably pleased with the product's ability to perform robust event correlation when compared to other SIM product. ArcSight got top marks for the effectiveness of its dashboard and did particularly well on data archiving and its policy engine."

ArcSight ESM, part of the ArcSight SIEM Platform, provides the real-time monitoring, historic analysis and automated response necessary to manage the higher level of risk associated with doing business in today's digital world. The advanced real-time correlation capability of ArcSight ESM identifies the relevance of a given event by placing it within context of who, what, where, when and why that event occurred and its impact on business risk. ArcSight ESM correlates incoming events with asset prioritization and vulnerability, user activity and threat history to deliver accurate and automated prioritization of security risks and compliance violations. The powerful correlation engine of ArcSight ESM processes many millions of log entries down to the few critical events that matter. These incidents are then presented through real-time dashboards, notifications or reports to the security administrator. Once risks are identified, ArcSight ESM provides a built-in workflow engine that guides risk containment activities, including case management and handing off the threat information to ArcSight Threat Response Manager (TRM), for threat isolation and remediation options.

ArcSight Network Configuration Manager is an appliance-based network configuration management solution that optimizes and automates the manual process of auditing network and security devices for compliance and change control, making configuration changes and documenting those changes across large networks as well as providing compliance controls to enable changes remain within policy. ArcSight Network Configuration Manager is tightly integrated with the ArcSight SIEM Platform.

The 2009 Readers' Choice Award recipients were selected based on the votes of over 1,700 Information Security and SearchSecurity.com readers. Each respondent was asked to rate products based on criteria specific to each category from a listing of more than 380 products and services spanning 17 different categories.

"The barrage of cyber attacks, theft and fraud highlight the vulnerabilities and risks experienced by the government and enterprise," said Reed Henry, Senior Vice President of Marketing, ArcSight. "It's essential that organizations proactively detect the real threats and risks, while at the same time monitor compliance controls. These awards are a validation of the value that the ArcSight SIEM Platform brings to our customers as well as our commitment to protect organizations in both the private and public sector from cyber threats and risks."

ArcSight and its products continue to be recognized as leaders in their industry. Already in 2009, ArcSight was named one of the 'Best Places to Work' in the Bay Area by the Silicon Valley/San Jose Business Journal and the San Francisco Business Times. In addition, ArcSight's partner program was awarded a Five-Star certification in Everything Channel's 15th annual 2009 Partner Program Guide and ArcSight was positioned in the Leaders Quadrant of Gartner's Security Information and Event Management Magic Quadrant for the sixth year running. Last year, ArcSight's honors included being ranked seventh in Deloitte Technology Fast 50 Program and named one of the Silicon Valley's 50 Fastest Growing Private Companies by The Silicon Valley/San Jose Business Journal.

About ArcSight

ArcSight (NASDAQ: ARST) is a leading global provider of security and compliance management solutions that protect businesses and government agencies.
