**ARCSIGHT SELECTED AS A NETWORK COMPUTING 2004  
WELL-CONNECTED AWARD FINALIST**

**SUNNYVALE, Calif. – April 19, 2004** - ArcSight, the leading provider of enterprise security management software, today announced that it has been named a finalist in CMP Media LLC's Network Computing Magazine 10<sup>th</sup> Annual Well-Connected Awards. ArcSight is a finalist in the Security Information Management (SIM) Suite Category.

"Network Computing has acknowledged the best and brightest in the networking and IT worlds for 10 years through its annual Well-Connected Awards," says Mike Lee, editor of Network Computing magazine. "The awards are determined as a result of product testing in the Real-World Labs of Network Computing, located throughout the U.S. More than 130 finalists in more than 40 categories have been named. The winners will be announced in the coming weeks."

"Reaching the finalist stage of the Well-Connected Awards is an important endorsement of the value that ArcSight delivers to organizations with increasingly complex security management problems," said Robert Shaw, CEO and chairman, ArcSight. "ArcSight leads the market on the strength of our vision, and we continue to be deliver market-leading features and innovation in response to customer demand."

**About *Network Computing***

For IT, By IT, *Network Computing* (<http://www.networkcomputing.com>), published by CMP Media LLC, Manhasset, N.Y., is dedicated to providing critical analysis of technologies, vendors and products to 220,000 IT Managers and Staff who are accountable for strategic technology purchase decisions. In 2003, *Network Computing* won a total of four awards from the American Society of Business Publications Editors (ASBPE), including a national award in the Best Technical Article category.

**About ArcSight**

ArcSight, winner of Network Computing magazine's Editor's Choice and the NetworkWorld Blue Ribbon Award, is the leading provider of enterprise security management software. By linking security management to key business assets and processes, ArcSight is enabling large organizations to achieve increased protection, greater productivity, operational confidence and compliance support from their security function. ArcSight's integrated solution spans all the critical security management functions, including event aggregation and archiving, real time analysis, incident investigation, attack remediation, reporting and audit. ArcSight is the first vendor to offer TruThreat™ Risk Correlation, which allows enterprises to focus on the protection of the

business by utilizing asset mission and value information, vulnerability assessment data, and security alarms to identify and mitigate threats and attacks in real time.

ArcSight's customers include major financial services organizations, government agencies, manufacturers and service suppliers such as the Internal Revenue Service, Telindus, Harris Corporation, Department of Health and Human Services, Union Bank of California, Defense Information Systems Agency, NTT, and Unisys. More information can be found at <http://www.arcsight.com>.
